is so full of duties.  
Father keeps hearing words of praise of you,  
from the people both in town especially since  
you have gone away. Father has not seen you

They expected both to go to Boston this morn.

Boston that you got along all right -  
It is blowing quite a gale to night, which  
is the third bad storm we have had

not help being anxious about you, but  
all we can do and the best we can do

My Dear Son Loren.

As tomorrow

is, Port Day, and we also expect to move into the new house. I thought I would improve this privilege of writing to you.

How I wish I could look in on you to day. We miss you very much. It seems as though you must be in the house to day and that I must put the beans back into the oven to keep warm for you this morning, but no. I had to put them back into the safe. for there was to be no welcome face of Loren to come bye & bye for them. but as we cannot be together at present - we must write often and you must make you self as comfortable as possible in your new place of abode. Dear Loren

I have sent you our old dishes with a few more I bought to match them as near as I could; - I hope they will not get broken before they reach you. As I made some fresh bread to day I thought maybe you would like a loaf of "Mother's bread" and it would be a good chance to send it - to night by the "Iden". I shall be glad when the October rains are over. A Squall has just come up and it rains and blows quite heavy. Be sure and be careful about being out in a boat this weather. The squalls come so sudden.

Bro Welch has just called in to see us. Martin will have a nice little playmate in his little girl. We are all well as usual only the Neuralgia troubles me some this damp weather, but by bathing my shoulder in spirits of camphor it gives me quite a relief. Try it if you should be troubled with it. It is about time for Eugene to start for the steamer so I will close by saying Good Night -  
from Mother. { May God's blessing ever attend you.

My Dear Loren

It is Saturday

night and Rubie Dottie & Martha are  
asleep. Father is to the wharf loading  
the 'steamer Woden (I believe the name)  
to go over here in my new house all  
alone and I thought I would improve  
the opportunity of writing to my absent-

Only Father is to <sup>have</sup> built a few out-houses  
in the yard &c. when he can get time  
I have just unpacked my crate of dishes  
to day and stowed them in the new  
closet. Mr House has made some.

This is a real pleasant little house  
but the yard is very filthy where the  
carpenters were here to lay at work,  
and probably threw down all their first

we are having it cleared as soon as

My Dear Son Loren

I have been waiting for the 'Aden' <sup>to</sup> go to go to Bowden, so I could send you a letter and as she expects to sail tonight about 11 o'clock, I will improve the opportunity, and send the two night shirts which have just been finished this evening. I would like to have had them washed & ironed first, but thinking you will get them to wear sooner if I send them and you get Mrs Wilson to do them. I will send them just as they are. I would not sleep in them before they are washed as the starch in the cloth bought in Pa makes them so damp. I send you some papers, which we have read, but-

There are two or three more Items or Leaf 72  
God Bess which Eugene has taken with him  
He said he was going to send them to you  
after he read them, but, he is to the Rectors  
to night with Eliza and I do not believe he  
will get them on board of the Eden tonight.  
We are all quite well. Father is bright and  
cheerful. The thought of coming up to Borden

spare the time yet - at present.

I am very glad to hear you are getting along

Have you eaten the cakes yet? Tell me when  
you would like some more and the kind.  
You have not sent the ticking yet, have you?  
I have been looking for it.

You must excuse Martha & Rubie from writing  
this time as they are fast asleep and did not  
know I was going to write. Martha's little work-  
box affords her a great deal of pleasure.  
She has all her little choice things in it and takes  
the best of care of it. I have sent to Mrs Richard-

I heard by Eugene he had searched Hingerson through  
and could not find any Elastic so I sent  
to Mrs B - for enough to make him and  
all the family some sleeve elastics. Remember

make a good visit anyway.

George did not go

I think I will send you the three

The mince pies <sup>and bread</sup> were made yesterday.

the bananas had been nice but they  
were the poor kind but I had to

recieved and am very glad to hear you are still well and  
getting along well at the house.  
We are all well at the house as usual. I am feeling better  
tho' not than I did last. The boarders are still here  
but the work that I had done me a lot of good  
and I have a pretty good girl with me now.  
Elisha has not been feeling very well a day or two past  
but is so he goes about. I think he had been trying too  
hard to get fat by eating 3 raw eggs every day for a long  
time one thing: and eggs taken too many was too breeding  
but when he goes North and stays awhile I think it will  
be a great benefit to him. He is staying at home to day  
and resting a while. The houses are progressing fast now  
one will be ready to hand Monday.  
Father says he has just had a telegram from Boston that  
the Freeman started yesterday and that there is more than  
half a chance for Dotie to be on-board. Just think! is not  
that nice. It does seem as though the time could have  
arrived for him to be coming. I think perhaps I had  
better wait and come up to Bowden now when Dotie  
comes, and I hardly think Father will find time to come with me.

me until after the Freeman arrives but you know Loren Father  
 does not know really when he will find the time, or when  
 will be the best time. When Father came before, sickness and  
 Ruby's birds kept me at home. But do not reckon upon his  
 coming any particular day and you will not be disappointed.  
 When we are sure what day we can come will telegraph.  
 Father is well and cheerful. The Baker is expected tomorrow.  
 The cards and present from Mrs Higginis were very much appreciated  
 and were very pretty indeed. Please tell Charlie to tell his Mother  
 when he writes me all send her many thanks and thank she was  
 very kind indeed to send them to us. We must soon try and  
 find something to send her in return. Then Rose has left Will. I think it is just as well not to keep a  
 girl too long at a time as they like a change and the new one does  
 better. I hope to please enough with the Pop-die but I think he  
 cannot wait until he comes up to see it but I guess he can.

Your letter with key inclosed was received this morning by the 'Aden' and was glad to know you were getting along well and health was good. Tell Nurse the clothes were all right and that I have concluded to have my other clothes washed in Port Antonio but I would like her to send down my bed spread the next time there is a boat coming down, as we are short of bed clothes here, and the roll of flannel which I received from Mr. J. Matheson <sup>just</sup> before I came away, as Father will soon be in need of more flannels.

We are all well, and trust this will find you in good health. I have concluded not to have the other deal chest made if I have my clothes washed here,

Dear Laren

I hastily write you a few lines to let you know that we had a pleasant passage down arrived about 6 o'clock, met with no rain at all. We called in to see Eugene's family on the way.

We met Mr Robinson going down. Father will send up some Cocoa-nut trash by one of the boats. Father is quite well, only has quite a bad cold in his head. I'm going to the Office this afternoon.

I think I shall come up on the "Borden" Saturday, but I may possibly ride up instead. Tell Rubie Martin has found him a lot of playthings and will bring him something nice. With love to all and hoping this

will find you well. I will <sup>M.R.</sup> soon call.

My Dear Son Loren & Dotie.

As I have not time to write to both <sup>separately</sup> and the promised letter from Martha & Rubi to Dotie. I must write hastily to you both in one letter.

I received your good letter this morning saying you were all well and I was very glad to hear it - as I am anxious all the time I am not with you.

Received a letter from Father this morning saying he should come out on the Mon Tuesday night at Borden, and Uncle Elisha Hopkins & son had just arrived in the

Acadia and he thought he <sup>would</sup> bring them out to Borden when he comes. I wrote to him this morning that I thought he had better do so, but being up another cot bed and I will buy a couple of pillows here.

I suppose Father will want us to come to Mt. Auburn if he is there after the rainy season is over. You will enjoy Uncle Echeha's company I think. We are all well.

Mt. Mathe has had a little spell of fever, but is all right to day. A dose of oil is the "cure all."

We shall all come in the Alps Wednesday if all is well. Mr. Sternstruck & wife are going to America in the ship so will come to Port Haven with us, and will be company & help to us in getting aboard the steamer.

With love to all  
 I am your loving Mother M.B.

Mathe's Tubie will have a lot of plasters to tell you when we get back.

Mum still continues to be good as gold. She is as smart now as any of the young women. I do not know what I should do without her here.

I have been

I have hardly had time to think.  
I found a lot to do, and five

Walter is well and the children  
but they are getting homesick to  
see Bougler again. They talked of  
trial - they were going to take money  
to Boulder, the first day they were here.  
Father says I cannot go home in  
the 'Alto' because he will be so  
lonesome, and thinks I had better  
stay until he goes in August -  
but I think he will change his

mind now I shall go sooner  
but I will leave it with your

Joshua will go up in the Aden post, is in the tin box of cakes

more before I come back, I think. Nurse is well and does me  
I hope you are well and are lots of good. She is washing all

She told me about - Mr Baker  
I wish you would send down cooking breakfast one morning  
the small mattress Father bought - for breakfast. I must ask him

This morning Elisha asked me if  
I would like to have some  
Maple Syrup. if so to send down  
something to put it in and he  
would send up some. I asked  
him where he got it- and he said

it was some Mr. Baker had  
 come out; send he had sent up  
 4 bins and kept two and that  
 Mr. House opened one to see  
 what it contained.

I was very much surprised and  
 provoked too, and I told Esho

 this afternoon by all means and  
 then if Mr. Baker choose to  
 send him some oil right-but-the  
 I did not wish any of it unless young  
 it was sent by Mr. Baker.

I think he is rather ashamed  
 now to send it. I said he would  
 not do so again, but I told  
 him I would not keep these up  
 two cans on any account.

I said Mr. Baker said he

My Dear Son Loren

I am sorry Mrs Clark could not have your clothes ready to send in the Aden to day, but he <sup>has</sup> promised to have them finished the first of next week. I send you three loaves of bread and a tin of butter as it is unusually good I think, and Mrs Baker's butter from America must be a little rancid by this time, and I thought I would send you a couple of Pineapple Scones, as I know that is your favorite pie. I would get the butter to put them in the Hurricane stove oven and heat them through and they will taste better & keep longer. We are all well at home and trust this will find you well. Father was up all night with the steamer last night, but is well, now. I expect he will be pretty tired by to <sup>morning</sup> ~~now~~.

Elisha seems to think he has a right to

But I tell Father he would not eat up

I wish this will find you, all well  
and getting along nicely. Where is  
Esther now and Margaret.

Nurse is well and getting along nicely  
only she likes Bowler to live, the little  
one will call Dathi. The tocher man that  
brought the water brought his little  
boy with him yesterday and before  
anyone was aware of it he went to the  
cage and let out Dathi's last little  
child and the little dog killed it -  
so the cage is empty now. It is too bad  
but we cannot keep many pets here.

I should like to see you very much  
and trust we shall meet again before

Rubie's Letter to Bro Lolen.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary sources, as well as the specific techniques employed for data processing and statistical analysis.

The third part of the document provides a detailed breakdown of the results obtained from the study. It includes several tables and graphs that illustrate the trends and patterns in the data. The findings suggest that there is a significant correlation between the variables being studied.

Finally, the document concludes with a summary of the key findings and offers some recommendations for future research. It suggests that further studies should be conducted to explore the underlying causes of the observed trends and to test the hypotheses proposed in the study.

I am sorry Mr Clark could not have your clothes ready to send in the Aden to day, but he <sup>has</sup> promised to have them finished the first of next week. I send you three loaves of bread and a tin of butter as it is unusually good I think, and Mr Baker's butter from America must be a little rancid by this time, and I thought I would send you a couple of Pineapple scones, as I know that is your favorite pie. I would get the Butler to put them in the Harroene stove oven and heat them through and they will taste better & keep longer. We are all well at home and trust this will find you well. Father was up all night with the steamer last night, but is well, now. I expect he will be pretty tired by to-morrow.

the room adjoining mine, and  
I see that it will be necessary  
for you to bring your trunk so  
I shall not have room in mine  
for more than Martie's and my own.  
I forgot when I asked you when you  
were coming back that you might  
want to go to Beverly Farms. I think  
they will be expecting you there so if  
you come up the first of next week  
it will be time enough.  
Be sure and bring me another small  
bottle of Bovinine and the bottle of beet

kind of Ladies boot polish and the 37  
plasters you have already wrote down in  
memorandum book. Mrs Rich has  
seen Revie, and is coming to Boston  
this afternoon. I think we had better  
go to Lancaster the last of the week  
but will want to go shopping one day  
first; to take the goods with me there.  
to leave with Ralph Hobbs. I am planning  
to have some work when I first come  
on again. after we return from  
Lancaster I want to make a visit  
of two or three days to Mrs Hastings  
in Chelsea and see Sofronie  
and spend two or three days  
with Samuel, and then before  
we sail one or two days more  
shopping and a day is best-  
between by that time the Harmon  
will be here again.

In haste and  
with much love, from

~~your mother~~  
The teachers were very nice  
and glad you got them, very thanks

Quincy House

My Dear Son Loren

Since writing  
you last Monday I have come to  
Boston and father & I are at the  
Quincy house for a short-time.

I went to the Dentist yesterday to have  
my teeth attended to. I have concluded  
to have a new set to make up with  
those I have already. I did not have to  
have one taken out or filled only 2 front  
ones moved nearer to the others which  
will be quite a long and disagreeable  
undertaking, but it will be nice to save  
all my own teeth. Dr Draper is his name  
at "Evans House" on Tremont St. one that Mrs  
Burnham recommended. Father thought the  
children better go to Dr Hodge as Dr Draper  
living where he does charges quite a good price  
to Joshua Mattie & Rubie are at Lynn today

having their work done and making Aunt  
Shannie a visit - at the same time. 22

We came up from Wellfleet - day before yesterday  
I am feeling quite like myself again.

To day Father and I went to a wholesale  
furniture store near by and bought some  
furniture or a part of it - for our house  
at Bowden. We bought a nice Bookcase with  
the rest - which I know you will be glad to know.  
Father thinks you had better strip off the matting  
and set the furniture in the drawing room  
and send the matting back as they will probably  
be worth \$5,000 or more. He thinks we had better  
take the table we have already used in the  
drawing room and have it fixed up and  
polished and which would be worth a great  
deal when it is done. So he will either get  
Mr. Wilhamis, or send it to America to be done.  
I will buy a nice cloth for it. When you  
see Mr. Wilhamis please tell him I will bring  
the brass handles for the drawer to my Wardrobe  
it is making when I come. Father received the  
measure of headlight for doors all right, and  
some day we will go and buy them. We have  
not decided yet about the paper for drawing  
room. We may keep that which Mrs. Beeton  
bought. I met a Miss Woodwell

of Newburyport to day, one of the teachers <sup>7.3</sup>  
we have been thinking about for Mattie &  
Rebecca, and father and I think she will be  
just about what we will require. She is about  
30 years old and has occupied a governess place  
some time, or taught a private school.  
She is a very fine piano player, teaches vocal music  
also, and a fine elocution teacher, also German  
and all the other studies Mattie will require. Can also  
give Rebecca some points in drawing. She has  
a Mother living, and Grandmother who lives with her.  
She would like to come very much herself but  
expect her Mother will of course feel very sorry  
to part with her, but I think she still  
come. She is very pleasant and firm also I  
should think. About the life of Abby Higgins  
father's cousin and looks and seems like  
her some. We are planning now to all go up  
to Concord to arrive on night and remain until  
Tuesday or Wednesday. The children will  
be up from Swampscott tomorrow. I must see  
the Dentist again Wednesday or Thursday.  
Loren you cannot tell how sorry I am that  
you cannot come on while we are here, but at  
present it looks as though you would not  
be able to on account of this business which  
is being transacted, but really Loren I think  
another year you would enjoy it a great  
deal more. I will try you all about it when  
I see you. Lucy I <sup>know</sup> suppose will be much  
disappointed, but she will have your visit  
to reckon upon, and she must make us a  
long visit in Jamaica. Father and I have not  
made Mrs Ober our visit yet but we are going to  
soon. We shall send you some grapes by the  
steamer which I trust will arrive in good condition  
Huckleberries are very scarce this year but I have  
canned 100 dozen jars to take home. Governor Russell and  
Addie Stone called to see me in W. L. C. last Wed

uesday. Elisha has written father a letter about  
Eugene and he feels rather bad about him, but  
is writing him to night. I do hope he will  
behave himself at present any way, until  
father returns. Then he will attend to him.  
I hope my dear good boy you are getting  
along well at home and all in good  
health. The time will soon come now  
when we will be with you, and I  
think we will have a very pleasant winter  
Mr. Gaius Snow I think will come down  
besides others and my health is so much improved  
I think we must take a good deal of comfort  
this year. I have bought Paris little girl the  
small wooden rocking chair which will come  
with the furniture and I will keep for Christina.  
Rebie is just as busy every minute with the boys so  
you must excuse him not writing before.

Trusting this will find you in good health  
and with many longings to see you, I  
must say good night for this time.  
Next steamer I will tell you about our  
visit to Concord.

With much love and  
best wishes, I am your loving  
Mother.

F. S. Father  
bought Martha  
a nice little  
watch to day  
and now  
she will be  
about happy  
enough to be  
can judge  
by what you  
have heard  
she says she  
regard to having  
one.  
Dot will see  
his in a  
few days.

Boston Sept-5<sup>th</sup> 1890

My Dear Son Loren

This is your birthday, and we all are taking note of it. I wish you many happy returns of the day.

I received your good letter of Aug 22<sup>nd</sup> in due time and was very glad to hear you are still getting along well and are in good health. We have all been to Concord since I last wrote you. had quite a pleasant visit, but I was sick one day with one of my neuralgia spells quite a severe one.

I suppose I got all tired out, and took a little cold. After we arrived at the Luning House in the evening I was taken again but not so severe as the first, and have been gaining quite fast since then. I must not travel about quite as much as I have been and I shall get along nicely.

Yes, Lulu did take a lot of pains to meet us

on the steamer and we thought a good deal of <sup>it</sup> <sup>102</sup> must-plan and spend the day with them before I come home.

I am preparing to have a set of false teeth to go with my natural teeth and in order to do that I must have one or two front ones moved nearer together. So I have had a plate with wires fastened around the teeth, in my mouth about a week, and I must wear it about a week longer. It is very uncomfortable but it is better than not to save my natural teeth. I must see the dentist every week until I go to Jamaica so it will call me to Boston more on that account. We are planning to go to Wellfleet tomorrow morning and come up again next Tuesday or Wednesday. We left Reubin to Concord last Tuesday and expect him down today.

We sent him your letter. It was too bad father or Dot did not get down from Concord in time to send you the grapes I wrote about. But they surely will today I think. Father is having a very busy and rather troublesome time just at present as the meetings have commenced in regard to reorganizing the fruit business, but he thinks every thing will work out all right in the end.

We received the limes all right-and in good condition, but-the guineps some one <sup>had</sup> eaten on board I think. We took the limes up to Aunt Martha, as we were just-going up there. I am reckoning upon the Vegetable Peas Joshua has just-this minute brought-them in there are 8 good ones and they will be so nice to eat-, I cannot eat- ~~only~~ what-is very soft- on account- of my teeth at present. Many thanks for them.

I have secured a teacher for the children. A Miss Woodnell of Newburyport- is 24 years of age. of Baptist-denomination, and can teach Vocal and Piano music very good. also Elocution German, Latin, and all the English branches. also Calisthenics and I think she will be a real nice person- She is about- the size of Abbie Higgins (father's cousin) and looks some like her. She will come down with us. Martha's school began last Thursday and is teaching this year in Chelsea.

I wish I had time to write a longer letter but <sup>10-4</sup>  
Gashua is waiting to take it to the steamer  
so I will close for this time, by wishing  
you all that is good. With much love  
and many longings to see you, I am  
your loving Mother.

P.S. I am glad you enjoyed to trip  
to Blue Mountain Peak so well and am glad you  
went. Sorry indeed to hear of Mr Wallace's  
death. Reunited the measure for curtains  
and paper & fringe all right. Please send  
the exact-measure of the top of windows <sup>facings</sup> in  
drawing room, to the bottom of the floor  
and the width of windows to the extent of  
the facings, as I want to get lace curtains  
for them.

Mother.

Boston Sept-13<sup>th</sup> 1890

My Dear Son Loren

I received your good letter of Sept-8<sup>th</sup> in due time and I assure you we were glad indeed to hear you were still in good health, and getting along so well.

I have been a little unwell. the past week or two. I went up to Concord, and it was quite cold there and they had no fire, so I was pretty tired and took cold at that time, which brought on one of my Neuralgia spells, but the doctor has given me medicine which has helped me very much and I am about as well now as ever.

It is raining quite heavily to day and I do not know as I will be able to get to Welfley to night as we anticipated, but Dot & Mattie will go, and Father & I will probably go down next week. Rubie went down last

Saturday and he will be disappointed if some of <sup>us</sup> do not come. I know you will be very glad to hear from father to day the result of the meeting. reorganization of the Boston Fruit Co. which was held here at the Quincy House in "Parlor G." Father has had quite an anxiety moved off his mind. It will be a short time longer before all is settled so he can come back to Jamaica. Mr Burnham insisted that you should be one of the board of directors when not father I believe raised a little objection, but he said yes, you was a worthy young man, and should be encouraged. I hope it will please you that you have been chosen.

Mrs Preston called at the Quincy house last Sunday, brought me a bouquet of flowers, and invited me to come over and make them another visit - instead of staying here, but I told her while I was having my teeth made, it was better for me to stay here where I would be handy to the dentist, as I have to see him twice a week. I have just been over and he

has put in the under set - to try awhile that. I may know how they are to fit. They seem rather strange and uncomfortable at present and I think they are rather deep for my mouth, so I will ask him to alter them a little when I call to see him Wednesday. It is nice to be able to save all my natural teeth I have left - is it not? I have 15 in all. I suffered some in having one of my front teeth moved nearer the others, but - it is all right now. Father & Dot have been so very busy with the meeting, and yesterday went up to the Fair in Milton, that he has not had time to look after the Alligator Pears & Oranges you so kindly sent us, but I expect they will get them to day. I hope they will have time to put you some fruit on board to day. The steamer sails to night. Dattie came from Uncle Walter's this forenoon, then he went with one to the Dentist which took 1 1/2 hours. Then after dinner he

went to get a shave<sup>4</sup> and now he has gone<sup>11.4</sup>  
out to buy Mr Stouers rubbers &c. It is 2 o'clock  
and the train for Wellfleet leaves at 4.40.  
he will have to hurry. I have not seen father  
since after breakfast. He is very busy to day  
and probably eat his dinner at the nearest  
restaurant. I expect Aunt Melissa will  
call on her way to see Artie off on the  
steamer. Aunt Emma is going on this  
steamer but have not heard whether she is  
on board yet, or to Uncle Nehemiah's  
If I had the time, Maathie & I would go  
on board the steamer and see them off.  
It has cleared off very pleasant since  
I first began this letter, and I rather  
think I shall go to Wellfleet tonight.  
I must close now, as I must begin to  
"pick up" a little. With much love to  
you, and wishes of all that is good  
I am,  
Yours loving Mother.

Maathie has just been writing to } With many  
Lulu. As soon as my teeth are } wishes to see  
all right - father & I are going } you and trusting  
down to stay over night with } you will be kept  
Mr Ober's family. } in good health. Mother

Father thinks you  
 had better send up  
 the House Paper  
 and say that  
 Mrs Beaton  
 bought also  
 the bill of it  
 by the  
 next  
 steamer

Boston, Sept. 19<sup>th</sup> 1890

My Dear Son Loren.

Father and I  
 are still here at the Quincy House.  
 It was not very good weather last  
 Saturday so I did not go down to Wellfleet  
 as I thought some of doing. Aunt Emma  
 Alice & Delia called here just about the  
 time I was to leave here to get to the  
 Depot in time, also Melissa & Arthur, and  
 in order to go should have had to hurry  
 a great deal, and then if I had gone  
 would have obliged to come up again  
 the following Wednesday to see the Dentist.  
 Mattie & Joshua went down and a letter  
 from Mattie this week said, Reubie got  
 in the car at South Wellfleet. He went  
 home with Harry (who had come to Wellfleet  
 the day before I suppose to play ball) and  
 stayed all night and spent Saturday with him.

he said he had a<sup>2</sup> splendid time.

12.2

I enjoyed Aunt Emma's call, am glad she came. Martha and Fashus had just-time to say "how do you do" and "good bye". Little Alice is very pretty and cunning. She gave me a sweet little kiss, and passed me one of her chocolate caramels she was eating. I hope they had a good passage home.

I have bin wearing my false teeth ~~one~~ since day before yesterday. He has made me a very nice set, but it seemed the first day I wore them as though I could never get-used to them, but I find I am doing better than I thought I should. I went up yesterday and had them altered a little: and to day he is to make a little clasp to fit-around one of back natural teeth which I think will be an improvement. Father says it is the best-set-of teeth he ever saw, the Dentist-takes a lots of pains to make them fit-just-right and says we must-not-pay him until they are in every way satisfactory. From the Dentist's yesterday Father and I went to Dr Williams to have our eyes examined so we would know what-kind of Glasses

to buy. He is quite an elderly gentleman but you would have laughed to have heard him jokes with us about our eyes, but I think he is a very good oculist! He said I had a pair of very good bright-eyes, but it was time now to wear glasses when I read, or done fine sewing. He said one of my eyes would need some eye water used 3 times a day on account of it occasionally running water. I think I told you about it one day. He said it was caused by getting cold in it some cold winter day when I lived in America. I remember it was one bitter cold day I went to church and that was the first time I ever noticed it. I told him about your eyes and he said he thought the eye water he had prescribed for me would be good for yours. so I am going to bring down enough for us both I think he would be a good one for you to see when you come on. He charged for both of us fifteen dollars in all.

He said father had one very good eye but the other was rather near sighted. Did't he

lends him to a good pair of glasses. I wish he had  
been wearing mine rather too strong for him but -  
later on he would need them.

12.7

Father is at the office this forenoon writing his  
letters and this afternoon he is going with me  
to buy the glasses and do some <sup>other</sup> shopping.

He has engaged a hack so I will not need to  
walk around much. It is a beautiful day to  
day and I think we will have some nice  
weather now. We are planning to go to  
Bellevue tomorrow night. Tomorrow at 1 o'clock  
there is another meeting here at the Quincy House  
in Parlor B. Father is so relieved now, he looks  
like another person. Some other good luck has  
come to him in regard to Florida which he I  
suppose will write you about. You would  
like to see the "Olivette" come to Bowden wouldn't  
you? I have heard you often speak of her. Her  
Plant is in Boston and has been talking with  
Father, but do not say anything about it until  
he writes you as I do not know whether he wants  
it sold - or not. I am very sorry  
indeed to hear about Eugene. Father has written  
him quite a severe letter and I think if he can  
be will be out of business now. But if he is out of

mind, we cannot expect him to act as one that is rational. David has written to father begging him to be patient with him. It is a very sad affair but must make the best of it. Father saw the Doctor of the Insane Asylum where Eugene stayed, and he told him <sup>that</sup> it was nothing at all hereditary but was owing to that leg he had, and he might in time have softening of the brain. I will tell you what he & the Doctor talked about when I see you (it was to make an allowance for Eugene in case at any time he should do anything criminal). It is about time to get ready for dinner now and after I return from shopping will finish my letter. The steamer sails tomorrow father says.

Friday Evening.

Well now I will finish my letter.

We went out this afternoon and bought our glasses, and some of our things, but as father had to go to the Office to do some more writing we could not stay long. We called to the Dentist and I think now my teeth are in nice order still he said after wearing them awhile if they were not just right to come to

him again. I like him <sup>6<sup>th</sup></sup> very much 12.6  
indeed. He was telling us this afternoon  
that Dr. Williams stood at the head of his  
profession and whatever he said we could  
depend upon, although he charged quite high.  
We bought some Christmas presents. I think  
at Christmas they are valued a little more  
than at any other time, don't you?

We haven't bought our two little centre  
tables for the drawing room yet. Father  
said he thought he would get 2  
chandeliers for the room also, and  
in cool wet-weather when they were  
lighted it would do as well as  
a kerosene stove to warm up the  
room. I did not think they would  
warm a room so until we tried  
them here at the Lincey house.

Woul't they be nice? We will keep the  
table we have already in the Parlor.  
Loren, if you could only be here with us,  
it would be all I would ask, but as  
it is ordered otherwise, we must think  
it is all for the best. My sheet is filled and I  
must close safe good care of yourself. With many longings  
to see you, I am your affectionate Mother.

Give my kind regards to Nurse

I am glad to hear such a good report of her.

Monday

Boston 22<sup>nd</sup> - 24<sup>th</sup> 1880  
Luncheon, 1<sup>st</sup> Anniversary afternoon

Dear Son

I am afraid I shall only have time to write you a short letter, as father was to send up for it towards evening as the steamer sails in the morning, and just as I took my pen in hand to write you I was interrupted by a call from Mrs Freeman so I must hurry now as fast as possible.

I received your good loving letter of the 15<sup>th</sup> and was so glad to hear you were still in good health, and that you bore the disappointment so patiently and with so much consideration. That is just like you Loren, My good noble boy.

I hope when you do come on, you will have <sup>such</sup> a nice time that it will make it all up.

I notice in your letter you had heard <sup>2<sup>nd</sup></sup>  $\phi$  was threatened with "Jamaica fever".

13.2

I do not think it was that exactly. I took a sudden cold when  $\phi$  was ex-hauled the doctor said which brought on the trouble, but the doctor soon brought me out of it, and I am feeling real smart again.

If  $\phi$  had not gone up to Concord I should not have got sick, but father said "he thought he could take me under his arm and take me about-most-anywhere with him", but he is just as careful of me now, and does not mean that I shall overdo again.

He is taking the best of care of me, and we are very happy together.

Under the pressure of business father had at that time, I do not think he hardly realized how much I was doing, and when father claimed for me to go with him, I felt as though I could hardly say no, when this was the first-time <sup>we have had when</sup> we could travel together for so long a time.

I went up with father to the Dentists this forenoon, and  $\phi$  think I will not need to go again. I may possibly need a little

more taken off of one tooth but am to wear them awhile and see. It is five weeks to day now I think since I first began with them, and I am very glad I have not got them to go over with again. It takes one some time to get used to the new teeth. I have just begun to chew a little meat to day. I have been living on soups, Milk, raw Eggs, Oyster Stems and fruit and Bouillon, but I have kept up my strength nicely. The weather is getting cooler now and my appetite is getting better. It takes the good cool breezes to sharpen up one's appetite doesn't it?

Joshua, Martha & Reuben are in Wellfleet, and father and I are going to start for the Cape day after tomorrow in the morning train. Martha writes, it is very lonesome in Wellfleet without father & mother there. Abbi & Cora have gone for a short vacation in the City and elsewhere. They went while Martha was in Boston with us. I am glad to know the furniture arrived all right. We bought some large, dessert, and teaspoons, heavily plated, that will look

since a long time with <sup>4<sup>th</sup></sup> care, the other day <sup>13.4</sup> but  
did not - (think of the salt-spoons, I am  
glad you mentioned them in your letter.

When we come up to Boston again I shall  
go out-shopping again, and will then buy  
them with the other things.

Later - Since I have been writing I  
have had a call from Mr. and Mrs  
Crocker, and a very strong invitation  
to go out to their home in Cambridge  
and make them a visit, but - it is quite  
chilly to night, and I think I had  
better not run the risk of taking cold  
again, by sleeping in a strange bed &c  
so I have persuaded father to go out  
with them and take supper and  
return in the evening. Now it is  
getting cooler, and I think the safest  
place for me is to stay where I can  
have a fire when I want it and go  
just as far as my strength will allow me.  
father told me he did not think I had  
better go. I want to get down to see Lulu  
again before I go, but if I do not, father will

5<sup>th</sup> Oct

go in my place and stay until after  
 dinner with them. I would liked  
 very much indeed to have had Lulu<sup>come</sup>  
 down to Wellfleet and visit us this  
 summer, and would have invited her  
 to come, but I will tell you the  
 reason when I see you. However  
 another year if we all live I think it  
 will be very pleasant at her home  
 there. Lulu sent Mattie another  
 invitation to come and spend a  
 little time with her, if she was  
 to be in Boston awhile, and perhaps  
 when she comes up again, - she can  
 run down with father. The time  
 is so short now before we will be  
 starting for Jamaica that I want  
 to save my strength so I will feel  
 real strong to take my journey back.  
 Do not worry about me at all Loren  
 because I am really better now than

I was last-year, <sup>ill</sup> and I am <sup>3.4</sup> careful  
not to expose myself to get-sick again.  
I am very glad the fruit arrived in  
such good order, and that you enjoyed  
it - and trust that to come it will  
also arrive in nice order for you.  
Peaches are very scarce this year! They are  
only fit to cook, they are so hard  
and sour. I have not had a call  
yet for this letter, and as father  
came in with Mr & Mrs Crocker  
and went home with them, I think  
he has forgotten to send the box  
for it - but however it will go  
by the steamer Saturday.

I have written quite a long letter after  
all haven't I? I will send the  
handles for my cedar chest by Saturday's  
steamer I think. We have concluded to  
buy two <sup>small</sup> centre tables for our large drawing  
room, and perhaps we can send them  
also. we shall very soon have to do all our  
shopping. I shall be so glad to see you  
again. Be sure and take good care of yourself.  
With much love, I am your affectionate Mother

Friday afternoon

Dear Loren

Since writing you  
we have been out and bought  
some more things for the house.  
I would unroll the tablecloths  
for the two centre tables and put  
them on the tables and lay a  
newspaper over them until we  
get settled. The handles to cedar  
chest are in the hardware bundles.  
We are just going to Wellfleet  
so are in a great hurry.

Dad sends love and will write  
next mail. I am afraid father  
will not have time to write this  
time.

Your loving Mother

Saturday

Dear Son Loren

As the steamer  
sails this evening I will write you all a  
few lines as I know you will be glad to  
hear from us, and will try and write again  
before we leave Boston for Florida.

Well Loren, this is really an unexpected  
trip that I am anticipating, and it took  
me some time to make it my mind to go,  
but as every one (the children and all)  
advised me so strongly to go, I consented.  
I think it will be a very pleasant way  
to take my journey home, and father seems  
so pleased that I am going, that I am beginning  
to anticipate it, as I will soon be at home  
with you all again.

The children & teacher sailed the 8<sup>th</sup> and  
it was quite hard to part with them, if  
father had not been with me, I couldn't

have let them <sup>2nd</sup> go without me, 16.2  
They went away bright and cheerful knowing  
that Mother would have such a nice passage  
home, with only two or three days on the water.  
I suppose we will go to Kingston first and will  
telegraph you soon as we arrive. Father thinks the  
'Borden' will have a nice passage down. We  
have had nice weather since they left.

I received your good letter of Sept. 30<sup>th</sup> yesterday  
also one you wrote Mattie, and was very glad to  
hear from you again. I feel so thankful that you  
have been kept in good health thus far.

I am glad you enjoyed your trip so well. See the mountains  
and have got settled all right. I must have been  
a little tired. I can imagine how interested I was  
in hearing you talk of it. I am very glad to hear  
she is doing so well. I would like to have her younger  
she would be a valuable person.

Since <sup>the 2</sup> Mrs. Preston called to see me the night the  
steamer sailed, had a very pleasant call from them  
and a strong invitation from Helen to make them a visit  
before we left Boston. If I go anywhere at all, I shall  
go there, but I am afraid as I have to be so careful about  
travelling about, I had ought to save all my strength  
for my trip home, but father will go and stay until after  
supper on his way up from Gloucester (next Monday  
I think he will go) I am real comfortable now but as  
I overdone and got cold once, I am cautious now not  
to do it again. I had a letter to you, partly written on  
Wellfleet which I brought with me to finish in Boston  
so I could send it to you by Sathie or Dad - but as we did  
not arrive in Boston until the day before they sailed, we  
had so much to do, that I did not think of it - hurried just  
after they had gone to the steamer, then I got a messenger  
boy to take it down, and she had been gone about 15 min  
so I sent it right away by mail.

They were in a very great hurry. The teacher and her cousin  
came here to settle down a little. The children and I had  
to spend a few moments with them in the Reception room  
and father hurried Dad away with the two girls  
to the wharf as they were a little late, so I did not have  
a chance to bid Sathie "good bye", so I told father to

tell him I sent it to him <sup>3d</sup> and he forgot to tell <sup>16.3</sup> him that. Father said he went away and left his overcoat in the office, but he will send it to him <sup>on</sup> the first steamer going to Port Moresby. We shall be sending some more things down on the next steamer. It was raining all the time most that we were here this time so I could not go out to buy anything more, but will go either today or Monday and buy the provisions, and I think Dottie forgot Rose's Collar. So we will buy that also. Reubie went out, and bought a nice little package of choice candy to eat on-board, after he recovered from his sea sickness, and gave it to me to keep for him, but it was forgotten in the hurry, it was too bad, although I think he was just as well off perhaps without it on the steamer. I think we shall find the teacher quite an every day, common sense sort of a person. She is highly recommended by the Prof. of the school I believe she has been to.

I was sorry and so was father that the two girls did not have time to buy themselves any thing in Boston. But the children had so much to do for themselves, every minute was occupied. Sarah wanted to buy herself a new dress, a parasol, hat, and plated Brooch.

but all Kate wanted <sup>was</sup> one of those dolls 16.4  
she caught sight of in the shop window on  
their way up from the Depot.

I will see what I can buy for them and send  
it down on the next steamer coming to Bowden.  
I hope you will like the screen I bought you.

I wanted to get one like mine but could not find  
the store. I thought I had the address with me.

I have bought the little salt spoons, and they are  
very pretty. Some had the "3" engraved on the handle.

In one of the packages of spoons which have been  
sent to Bowden are two rings, one gold, and one  
silver, which went down by mistake. They are  
intended for Christina's. So please look out for  
them. I have the salt spoons here.

From where our room is (on the second floor) we  
can look right across the street and see Mr John  
Hastings at his desk busily writing all day. Father went  
to a Temperance meeting last evening and Mrs Hastings  
was there. She called in to see me on her way home  
and invited us to come and see her. She is a fine lady.

Mattie & Pauline's proofs have come in, and I am sending  
them with the letters to day. I have written on the backs  
of 2 of each which father and I think are the best, and  
have sent them to you to choose which you think  
best. Father & I will have ours taken next Tuesday  
I think.

We have our suspicions about Pat. He  
was out quite late the night we arrived in Boston and  
a young lady by name of Cora Higgins is up this  
way on a visit, and with what Mr White has told me I  
believe it is true. Well Cora is a nice girl, isn't she? and  
Pauline thinks Lulu & Cora are just a nice pair, and so do we all.

I will write a few lines just before we leave Boston  
and then I don't suppose you will hear from us  
again until the telegram comes from Kingston.

With much love, and trusting you will be  
kept in good health, I am

Your loving Mother.

My Dear Son Louie

Father has

decided to day, to go to Florida. As Mr Plant telegraphed that he expected to sail from there to Jamaica about the 20<sup>th</sup> of Oct, but might be delayed a few days on account of Kascatter's repairs, he hardly knew whether to go that way or come direct to Jamaica on the Ethelred which sail this evening, but thinking a man like Col Plant would not deceive him and keep him waiting in Florida when he is so anxious to get home soon as possible, he decided to go. Mr. Irish Young has come up from Wellfleet and will take the trip with us. Father thinks a great deal of the Garry. He does seem to be a very nice man.

I received your good letter by the Ethelred via Boston & Boston, and was very glad indeed to hear from you again.

Dear Husband

My Trunk is all ready  
 so I send it right away also the  
 umbrella for Nurse Sarah's Job.  
 I have not my letters ready to send  
 the children but am writing them  
 Samuel & Melissa have just called.  
 Martha.

P.S. You will be surprised to  
 see the above written on this sheet but  
 father sent up for the trunk and  
 I hastily caught up this sheet as  
 it lay blank side up and to my  
 surprise found it was your letter  
 on the other side. ~~But~~ to save time will  
 not rewrite it as I am pressed for  
 time.

Samuel & Melissa made me quite a long  
 call. They brought a bundle of Dr. Williams' Pink Pills  
 I put in the trunk. I have put Gattie's  
 overcoat in it, also and wrapped our clock  
 in it. I took out his knife tooth brush  
 bottles &c and wrapped them separate  
 and put in the trunk but his letters & bills  
 I did not disturb they are in one of the pockets.  
 Puppies collar is <sup>from trunk</sup> there also and felt  
 Reubie the candy he gave me to keep for him  
 I had added a little more to it and sent it  
 in a box on trunk. Tell Gattie, Kemel Wallie  
 was here yesterday and said he had received  
 his letter but no coat as yet. I think he  
 went away in such a hurry he must  
 have taken it to the steamer with him through  
 mistake as every thing went down that was  
 in the room. I suppose the folks have all  
 arrived home by this time safe and sound  
 & trust. How much I would like to see  
 you all. I am glad we are to start in the  
 morning and trust we shall not be delayed  
 in Hialeah. I am getting homesick to see my  
 dear ones and father too. He thinks we  
 will have a pleasant trip home and it  
 will be nice to have only two or three days on  
 the water. I was weighed yesterday and weighed  
 111 lbs. That does very well, doesn't it?  
 I shall have to write a hurried letter this time  
 as we have considerable to do this evening.  
 So I must say good bye for this time. Will  
 write whenever I can get a chance to send a  
 letter. I will write Mather a few lines, but  
 will not have time to write more.

With much love and many longings  
 to see you, I am Yours lovingly Mather

careful and not take cold, and keep

Brother & Mother are well, and are  
looking to do our best so they can

amount to a thing about 10,000, and then

has been in to day and examined  
Rubi's leg, and says stress must  
be put on the rest of the week as  
to be strengthened, and it is  
very much.

We are getting ready to celebrate  
Christmas, so I am very busy now.  
Rubi is reckoning a great deal  
about it - it is a great deal of work and is

bed. Father thought "now a look"  
 "head" is Boston while we were  
 there and a "well" since "a little".  
 "We shall meet you" and father  
 very much at the "part" time you  
 "shade over" were absent - "habitation" can see.  
 "but we shall it" will be a very  
 "copy" one to you, with the one  
 you have so well.

Mattie has begun a letter to write  
 but - "her" needs a lot of "a. lewin"  
 so she has spent her "time" since  
 vacation trying to "arrange" her.

She will "soon" finish and send it.  
 I received yesterday the "oil" cloth curtains  
 drawer handles, and "solid" figures  
 but - have not - heard whether  
 anything more has come or not.  
 I suppose the blinds are somewhere as  
 the figures have come, but - perhaps  
 they have not - been sent up yet.

Father's writing is on the way out -  
 my "time" or "well" or "a little" done.  
 "to" with not - write from this  
 time. Everything is going on  
 all right - at - home, as far as  
 "can" see. Hoping soon to see  
 you and wishing you all that  
 is good, "to" you.

Love,  
 Anne, Loung  
 Marie

Be. he and. Mattie  
 and. Loung.

P.S. I have not - received Julius letter  
 yet - but am still expecting her.  
 Here to visit - as this winter.

"We are all well."

we have if some could only meet us in  
Boston by the 27th or 28th of August, it  
would be a blessing. I suppose you  
cannot leave until the 5th of Sept. and  
then later. I have decided not to go  
to school with Martha & Stamba when  
they go. I am hardly able to, but  
when father comes we can go up and  
stay two or three days and the children  
can come down to Boston and see us.  
Oh I think I had better remain in Wilkes,  
until further notice. We are very particular in  
finding such a good doctor, after we and  
will be able to get about all of our work  
done here. It is true she makes mistakes, but  
we is so willing to rectify them and this at-

My dear Son Loren

I have just been writing to father, and I wish you will join your father's business some time to help your father's business still go on a little longer. I wish you would take it as something. I wish you would be more like the other ones are keeping him under strict orders until he is entirely well of it. I do not like to see common colds

 to be there and take care of him the Agricultural Fair which is  
 but as I cannot, I can only held in Lewiston is said, so  
 trust him in the hands of Pasha at last - concluded to

 he can, and will, do all things missed in last year, and I

 I may have come on the evening train,

a visit - to get well, and I  
 am profiting by it. All the  
 folks are well, and we are  
 getting along nicely. Grandpa  
 comes in to see me as usual

 alone. Aunt Melissa and  
 the two little girls were to go  
 out on the boat - to day but  
 Arthur is to remain a week  
 longer. Most all the visitors  
 in town are packing up to  
 go home now. To day is "Labor  
 Day" and that is why Bud  
 Cook is in town I suppose, and  
 a few other young men I do not  
 know, and Ben Cook called  
 at the house this morning to  
 know that it is called as I  
 told them they could come over  
 and see our "Semin Court" if  
 they wished to. so they stayed  
 until noon and left

to enjoy having them there very much. He is very lonely when Ed goes away. Ed always takes him to sail with him, and is next to <sup>a</sup> nelson.

Grandpa was intending to go with Joshua one day but it looked rather cloudy so he thought he would not go. I think that piece you sent Heath about the "Breath Cure" was pretty good Don't you?

I forgot to mention it before. I have tried it and imagine I feel better any way.

My true Bowden arrived in Boston Saturday as Mr Preston expected. I think I will have a letter by this evening's train. I have engaged Henry to come here this evening and take my letters to the office and I will ask him to inquire if there are any letters for

My dear Son Loren

Father says he thinks you and  
 father will be coming on the  
 "Ethelwold" Thursday, but it seems  
 to me it is hardly possible for  
 father to get over his illness  
 in time to come on quite as soon  
 as that, but I do hope it can  
 be so. still I thought I would  
 write you a few lines and let  
 you know how and all are at  
 home. I am still growing  
 slowly, and have been out of doors  
 to day and walked out of the yard  
 this time as far as where we then  
 to go down the hill by "Barn"

and he does that - we have been able  
 to attend to my work ~~most~~ all  
 day. The weather is magnificent  
 and the breeze over, and I hope  
 we will have a good long Indian  
 dinner after beer and Father  
 went. Father will go out to  
 "Baiton" in the morning and take  
 some flannels and "Hatties"  
 (which which has been in Boston  
 to be cleaned) up to her the  
 next day. I think and he will  
 be there in 'llow to attend the  
 Fair. Mattie & Berrie will be  
 glad enough to see him.  
 I shall invite to dinner to  
 my room, as you will notice  
 I have the letter paper to write  
 you about now. I will only  
 write a short letter this time  
 as I do look for you soon.

quite a warm pleasant fall, and I hope  
you and father will be able to spend a little  
time in Wellfleet. I think you and  
father would enjoy it very much.

Yours affectionately

and hoping soon to see you I am  
Your loving

P.S. I know you will remember  
the engagement. It is a nice  
one, and as before announced  
will be in your favor.

Saturday afternoon

My dear Son Loren

I think I will write you and father while onboard the steamer, as I shall be so busy when I first arrive that I will scarcely have time to write you any kind of a letter to go by the return ship, and it will be a nice chance too, as it is a little too rainy to sit upon Deck.

Well Loren to day is Saturday and our voyage is drawing to a close, and I have not been seasick yet, but am surprising everybody because I am so smart.

Tuesday night it was rather rough, and most of the Passengers were sick, but I went right into my berth and slept through it all. Wednesday & Thursday were two beautiful days, and I sat upon deck all of the time and enjoyed my chair very much indeed. I had some nice naps in it, and I got a good coat of sunburn too, but I intend to enjoy the fresh air and sun when I can. I went <sup>and</sup> sat a little while in my nice chair yesterday morning, but it came on to rain so I had to come down, and sit in the Alcove the rest part of the day and this morning it was still raining so have been sitting

here through the day reading and writing, and sometimes talking <sup>227</sup>  
with Mrs Keyland and others. This afternoon the sun come out  
but it is damp and I think I will wait until tomorrow  
before I venture again. Joshua brought Mr Richardson  
and introduced him to me, and I found him to be a very  
pleasant nice appearing man. He said he should have known  
me any where, "Looked so much like you. He seems to be  
bright and cheerful, and very glad to get home again of course.  
He is improving every day, and is Bro Connel. He says his  
eyes have improved since he came on board. Mr Richard  
son, is going to read Mathi's story she sent me to read on the  
steamer and to leave here, to-morrow (Sunday). I have read  
it while onboard and it is a beautiful story. The title is  
"Titus" of the A story of the Cross. The family from Bangor  
I think are reading it to day. Mrs Keyland has been feeling  
rather poorly since she has been onboard until to day she  
seems like her old self again. Mrs Bennett the Stewardess  
was taken suddenly ill yesterday forenoon raising blood,  
and she raised quite a quantity, but it could not have  
come from her lungs, if it had it would have weakened her  
more, but she has been persuaded to keep quiet until  
she sees the Doctor in Boston and her husband thinks he  
will leave her at home a trip to rest. The servants are well  
and seem to be enjoying the voyage and are behaving very well. Once I  
had to speak to them for talking so loud. They are not seasick and  
I have had Mrs Cameron to bathe my chest and shoulders with the  
Liment every morning and help me dress and undress which has  
saved my own strength, and Joshua has had a chance to assist the two  
sick men, more, since the stewardess has been sick. I have told them  
to call upon them all for any help they needed. I am very sorry for  
Mr and Mrs Bennett. Mrs Neal once raised a qt of blood from her  
stomach, but is now quite a strong old lady. I suppose she took  
care of herself in time. The stewardess wants to be up and around as  
usual but we are trying to frighten her and keep her quiet, and I  
think she will keep quiet now.

What did you think of "the Lasell Girls in Blue"  
Loren? I wish we could have been there to have seen  
them don't you? After you left me that night I hurriedly  
looked over the names on the wrappers, and I found one  
for L.D. Baker Co, which you had overlooked so I gave  
it to father for you. Joshua has been quite anxious for  
hear the steamer will not arrive in Boston before Monday  
night, but he came in a few minutes ago and said  
Well, she is rattling off the distance to day, and I guess  
we will get in by Monday noon. Well Loren, I have  
thought of you every day and many times a day since I left  
you. I do hope you and father will keep well and  
will soon come and meet us. Tell father the gentlemen  
from Kingston here think the railroad will be through in  
two months, but not to wait - come on and let the folks cable  
him when to come, that will be the wisest way. I have  
written father, but forgot to write him that, but have been  
urging him to come, early. We shall be so happy to get  
home again, but it will not be complete until you and sister  
come.

Monday evening. Inboard of "Goodwin" 20 min of 8.  
 Will Loren, We are still here, we passed  
 "Highland Light" about 1/2 past 2 o'clock. We were  
 quite disappointed not to be able to arrive in Boston  
 this noon. We may have a "tug boat" meet us and  
 carry us up to the Dock. The Pilot is onboard, but  
 Joshua says we will probably all stay onboard tonight.  
 Since writing you Saturday we have had quite rough  
 weather, but to my surprise I have not had a vomiting  
 spell yet. I have felt seasick but laid quietly by. I  
 am very glad as it strains my throat. It has been  
 very cold since last evening. To day on Dock it was down to  
 50. but we had the steam turned on in the Cabin  
 and I put on plenty of warm clothes so will not  
 take any cold I guess. I am feeling quite strong and  
 have a little appetite too. The two first days of good weather  
 was nice for me and gave me a good start.  
 Capt Anderson signaled them at Chatham when we passed  
 by, so I think if Hattie has been waiting at the Office in  
 Boston she has heard we are so near Boston.  
 I was thinking this afternoon about those Bath house keys.  
 I cannot seem to remember whether I took them out of the Bathroom  
 and put them in the bag on the table shelf where we keep the  
 keys or not but I hope I did. I suppose in the morning we will  
 all be very busy getting ready to go ashore, so I think I will  
 finish my letter this evening and Joshua will tell you about the  
 next day in his letter and if Hattie came onboard. I hope Mr  
 Stover to visit you for company and that you are still keeping in  
 good health. I will write you again by the next ship. Be sure  
 and take the best of care of yourself, and be thinking what  
 fine times we will have when we get met again in our dear over  
 native land. With much love, I am Your loving Mother.

 to have her go on but don't  
 like to go away. I want  
 the picture and she will  
 take her up and I will  
 me I will still thought I will

The incident is quite strange to find  
that I find some one besides me  
to be able to get a good to pay her, and  
to get her to come to me and get me  
to get together some more of the

Tuesday Evening

My dear Con Loren

You will see by the  
 receipt of this note that we are not at the  
 Parker House, but we have not yet moved  
 since on the 4th I came to the city and  
 in view of the delay I am not here  
 yet, so on that account we have not  
 had the opportunity to see you in  
 person. I am so sorry that I  
 cannot see you on the 28th of  
 January. I am sure that I  
 should like to see you very much  
 and answer them before he goes down. After to  
 day unless Father should send for him to come  
 to Jamaica, he will come up to the city.

time the steamer arrives and give father all the  
points he can about them as he asked him to,  
6. in one of his letters. We are looking for  
you and father to come on every steamer  
and I trust soon to see you. We have been  
in Boston just 3 weeks this morning, <sup>which is</sup> less  
than I thought we would be, but we have  
a lot of work done and it has been a  
success too. When you and father come on over  
we will have the spare time to go and pay  
<sup>some of</sup> the promised visit. I called on Dr. Weston  
in the eve last evening but particularly for  
Mattie as I did not like to see her get tired so  
quick, as he said she had not got her <sup>back</sup> out  
yet from having the measles, but the cure  
and change in Wellfleet would do her a  
lot of good, and with the tonic he prescribed  
for her and the medicine to spray her throat, she  
would soon be all right again. He examined  
my lungs and said they were considerable  
better than they were last year, there was  
a little inflammation of the left lung, but

 did not see how I could not live out my  
 allotted days, and he hoped I would give  
 'em Smith the same. I would not <sup>that</sup> and would  
 keep her with me. As she has been staying  
 with her friends in Boston, I have only seen  
 her <sup>the</sup> three times she has called here to bring  
 me some sewing she has been doing for me.  
 But we all like the appearance of her very  
 much. She is one of the nicest sewers and  
 menders I ever saw. I think I can say  
 the nicest mender. She makes old garments  
 look like new ones. She has been making

 I had to look twice to see where they were

are still keeping your health and that Nurse  
is taking good care of everything and giving you  
good food. I wish the Indians had seen  
you as I father some nice fruit. I thought I  
would see the other day when I went out if  
I could not find something to send you, but  
I could not seem to accomplish anything. If  
I only could, there would be a lot of nice things  
coming to you, so you must take the will for  
the deed. Any way we will have all the nice  
things to eat we can find, when you do come.  
Dr. Edman is looking pretty well now, but  
says he had quite a sick time last February with  
Pneumonia, and only regained his former strength  
a few weeks ago. He said there were a few  
doctors in Bolton and one right across the  
road from him who died with it last winter.  
Everything is going on well at the Cape, Charlie  
meets Joshua, and they are anxious for us to come.  
He is heating the house all ready for us to come  
this week. I will not close my letter until I  
hear from the Ethelwold tomorrow. Have just  
written to father.

Boston, July 5<sup>th</sup> 1896

My dear son. It is Wednesday forenoon <sup>(Wed. Morn. 1896)</sup> and Goshua has telephoned to us from the north that the "Ethelwold" is over, so I think I will not wait any longer but will close my letter as it is most dinner time and as the weather is pleasant we will surely go to Wellfleet this afternoon. Lebbie had a pleasant visit with his school friend Russell Southwick <sup>at</sup> of Northampton, and arrived here one day later than he expected. He will invite him to Wellfleet soon to return the visit. Goshua will write you all about his faith. Mattie & I had a good start before the packing of our trunks. We could see the procession very plainly as they passed from our window.

so we did not need to go out of our room only to get our mess. Joshua came in the evening and we were glad enough to see him safe and well.

I have not been out to see Mrs Atwood but have tried hard to get there. The children thought I would overdo and did not seem to think it would be best for me to go. Perhaps it is not, but still it seems impressed upon me that I ought to have gone. If I could have gone alone I should have taken a day and run out there, but still it may be for the best not to go. With much love and trusting this will find you well and that we will soon see you again.

Yours loving  
Mother.

My dear Cousin

It does not

surprize me that you should be so well as you are. I have expected you to be in the hospital for some time. I am so glad to know it is so, and I trust you will arrive safe and well. I am feeling real well, only I have my cough is yet at times troublesome which is to be expected for some time to come yet. Helen & Beatie are staying with us until Eric comes is ready for some more family to have. I wish to see you. George and family come down last evening.

THE BOWDEN'S JOURNEY HOME  
FROM JAMAICA—Baltimore, July 25—From  
Cuba to Ball, with a broken rudder, is what  
was accomplished by the at Bowden, Capt  
Wilkie, which arrived yesterday from Port  
Antonio. When off Cape Mays, at the east-  
ern end of Cuba, the Bowden's rudder post-  
head broke, leaving the rudder in position,  
but unmanageable. A 30-foot boom, weighted  
at one end with anchors and chains, was run  
out from the stern, with the heavy end rest-  
ing in the water. The other end of the boom  
was fastened on deck. Two ropes ran out  
to the end of the boom, one on each side,  
and by these means the vessel was steered.  
Then the steamer was headed for Fortune  
Island, 80 miles distant, where more perma-  
nent repairs were made. The ends of two  
chains were fastened in the back edge of the  
rudder, and then the chains were connected  
with the pilot wheel ropes. Under this ar-  
rangement the vessel steamed from the is-  
land up the Atlantic coast, the length of the  
Chesapeake, to quarantine, where she took  
a tug and was towed to her wharf.

My dear Son Loren

When I came all invited us to come so strongly that I think we will go as I am pretty well now. Mother father and I went down to the B. & O. Office last Tuesday morning and met the girls and Giddens. They had a nice passage up and seemed happy to see us. We went over to see Mr. Giddens

so we did. I was glad to come for I had a chance to be with father and see the servants and the alterations made in the Office, which are very nice indeed.

Mr. Giddens was to show us the Office. I had a good talk with him and he was very kind to us. He said we might see some of the alterations made in the Office. I was very glad to see them and he was very kind to us.

Dear Mother

I am feeling quite like myself again this morning. Mother told me to go to the court when I needed any money, so I have written him to send me...

Handwritten notes and scribbles at the top left, including the date 'June 26th 1848' and 'The Evening Star'.

We are still detained here about a week, on account of me getting over tired going back and forth into Boston to get our work done so often, so Tuesday Mattie & I have concluded to take one trunk into Boston to the 'Beverly' and when there we have done and kind of had out and go to Mississippi the following day. I am getting anxious to day, and Mother is watching me very close, that I go any farther.

Heather has been in it in 3 weeks  
and engaged the same soon after  
engaged for us when he was here.  
I wish it was strong enough to do  
my work and come in here and  
stay at Inverdale, but as I have  
to go in so often and there is  
so much coal dust in the cars  
I will have to give it up.

The best way for me to do is to  
stay right in the city and get my  
work done and then go to my own  
house in Wilflet and rest, and  
then I shall be in good order to  
make my calls and visits afterwards.

I only came here because Mattie  
wanted to pack up her trunks for  
and I liked here so well, and it  
was cheaper boarding here, so I

thought I would stay until we went  
to "Paris"; not knowing I would  
get so tired with the journey.

Heather is well, and bright and  
cheerful. We are reckoning upon  
going to Wilflet and having you  
all come too, and it would be long  
now if all is well before you shall  
be here well it is

I'm sure and take the best of  
care of your health. I took a  
walk out to day. We are having  
real summer weather now.

Please excuse a short letter this  
time as I must take my afternoon  
rest; or Mattie will be after me.

I must say adieu now. I assure you,  
With much love and many longings  
to see you, I am, Your loving Mother.

He said father told him in Boston that  
 he would arrive the 1st, and to write  
 to her about it. I told her about it  
 when he first heard of the loss of the  
 "Belvidere" and she told her mother  
 she felt so bad she felt she had  
 it beside herself. Mother told  
 she had been so busy with her school  
 that she had had her. I told her  
 but will do so now, and send you and  
 the boys father the name, and ask your  
 approval of it. We are making plans  
 to go to the school in the fall.

Hambden is not here this  
 summer but a person has taken his  
 place and there is a Mrs Freeman  
 I don't know her name. I don't know

I have the honor to acknowledge the receipt of your letter of the 21st inst. in relation to the above matter. I am sorry to hear that you are unable to visit us at present, but I trust you will be able to do so at some future date. I am, Sir, very respectfully,  
 Yours truly,  
 J. M. [Name]

I notice you have not said in your letter which comes by before yesterday.

I don't believe we will need the flour Habida such a good cook

to make quite a bit - the more I can get the better to compare with the flour

it is not so much the flour that they have in hotels and every thing else

make for us a bit of cakes and puddings, and it seems to me

it would be a good idea to keep some of the flour in the kitchen in cooking dishes etc. The flour is and quick and smart and can do the work

of two common flour, it is much finer than the flour we use at home and will need very little

flour and I don't believe we will need it at all; these are the whole letters

and I will write you again next week and father and John. I hope you is a hard-levelling for Jackson now

are very glad. With lots and lots of love. Brown Mother.

I hope my letter is not too late. The steamer.

My dear Tom-Love

I was so glad  
to receive your good letter a  
few days ago and to know you

soon be home again. We have

missed you very much but still

I often think what a dear good son  
you have always been to Mother not-

I shall never forget it.

I have not been very well the past week  
or two, have been having quite a hollow

leave but am much better now.  
I hope soon to hear you here

and will soon be home.
